ITEM 5. OTHER EVENTS

On February 14, 1997, registrant commenced an action by filing a complaint in the United States District Court for the Eastern District of Virginia, Case Number CV 97-230-A, entitled "Frequency Electronics, Inc., Plaintiff, against United States of America, Department of the Air Force, Defendant". The action seeks a declaratory judgment and injunctive relief to compel the defendant to discontinue registrant's suspension from receiving new Government contracts pursuant to the notice of suspension issued by the defendant on December 13, 1993. Upon commencement of the action, registrant filed a motion for a preliminary injunction to compel defendant's discontinuance of the suspension pending final disposition of the action. In the complaint, registrant alleges that continuation of the suspension, under the circumstances of this matter, exceeds defendant's authority under Federal Acquisition Regulations; violates registrant's rights under the due process clause of the Fifth Amendment to the U.S. Constitution; is a denial of the procedural due process and principles of fundamental fairness

mandated by applicable regulations; and is arbitrary, capricious and an abuse of discretion. Registrant believes that defendant's position is contrary to applicable law and that registrant will prevail in this action.

For a further discussion of the suspension referred to above and of matters related thereto, reference is made to the following reports of registrant filed under Section 13 of the Securities Exchange Act of 1934, all of which are on file at the Securities and Exchange Commission:
