Explanatory Note

On September 28, 2000, Frequency Electronics, Inc., a Delaware corporation (the "Registrant" or "FEI") filed a Form 8-K describing its acquisition on September 13, 2000, of substantially all of the outstanding shares of Gillam S.A. ("Gillam"), a privately-held company organized under the laws of Belgium. At the time of the filing, audited consolidated financial statements of Gillam compliant with Regulation S-X were not yet available. As a result, the pro forma consolidated financial information required by the Securities Exchange Act of 1934 could not be prepared. The purpose of this Form 8-K/A is to amend the initial filing with respect to the Gillam acquisition and provide the required audited financial statements and pro forma financial information reflecting the acquisition.

As permitted by Rules 3-05 and 3-09 of Regulation S-X, since the Gillam acquisition does not exceed the 30% significance level, its audited consolidated financial statements as of March 31, 2000 and for the year then ended have been prepared in accordance with Belgian standards of accounting. This is a comprehensive basis of accounting other than generally accepted accounting principles used in the United States. A reconciliation of the Gillam consolidated financial statements as prepared under the Belgian standards to United States generally accepted accounting principles has not been provided. Some of the principle differences between United States accounting principles and the Belgian principles applied by Gillam include the capitalization and subsequent amortization of research and development costs, calculation of operating income and operating charges, and the revaluation (increase) of certain long-term assets.

ALL AMOUNTS IN THE CONSOLIDATED FINANCIAL STATEMENTS OF GILLAM ARE EXPRESSED IN THOUSANDS (000s) OF BELGIAN FRANCS. In addition, the Belgian format presents certain subsidiary accounts which are indented and added UP to obtain subtotals and totals.

The pro forma financial statements are expressed in US dollars, translated at appropriate rates of exchange for the periods presented.

Documents referred to in this Report

Frequency Electronics, Inc. has filed documents with the Securities and Exchange Commission that are referred to in this report. The documents and the information they contain are described below.

Form 10-K for the year ended April 30, 2000. Form 10-K contains audited consolidated financial statements for fiscal year 2000.

Form 8-K filed on September 28, 2000. The Form 8-K includes information about the acquisition of Gillam S.A. $\,$

Item 7. Financial Statements and Exhibits.

(a) Financial Statements of Business Acquired.

The Form 8-K filed on September 28, 2000 is hereby amended by deleting the paragraph in Item 7(a) and replacing it with the following:

Audited consolidated financial statements of Gillam, S.A., including related notes and independent accountants' report, are attached hereto as follows:

Statutory Auditor's Report	Page 4
Summary and Identification of Companies and Signatures	5 - 6
Consolidated Balance Sheet as of March 31, 2000	7 - 8
Consolidated Income Statement for the year ended March 31, 2000	9 - 10
Notes on the Consolidated Annual Accounts	11 - 28

(b) Pro Forma financial information

Unaudited pro forma consolidated financial information reflecting the Gillam acquisition, including related explanatory notes, are attached hereto as follows:

Basis of Presentation	29
Unaudited Pro Forma Consolidated Balance Sheet at April 30, 2000	30-31
Unaudited Pro Forma Consolidated Statement of Operations for the year ended April 30, 2000	32

Notes and Assumptions used to prepare the unaudited pro forma consolidated financial information are provided at the bottom of each page ${\sf page}$

(c) Exhibits.

99.1 Press Release of the Registrant dated August 30, 2000
The press release was previously filed with the Form 8-K on September 28, 2000 and is not included in this amendment.

STATUTORY AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED THE 31st OF MARCH 2000 TO THE SHAREHOLDERS' MEETING OF THE COMPANY "GILLAM S.A."

At the shareholders' request in order to fulfill "SEC" (Securities and Exchange Commission) obligations in the context of acquisition of "GILLAM S.A." by "F.E.I.", we are pleased to report to you on the performance of the audit mandate which you have entrusted to us.

We have audited the consolidated financial statements as of and for the year ended the 31st of March 2000 which have been prepared under the responsibility of the board of directors and which show a balance sheet total of 677.774.(000) BEF and a profit for the year of 175.277.(000) BEF.

UNQUALIFIED AUDIT OPINION ON THE CONSOLIDATED FINANCIAL STATEMENTS

We conducted our audit in accordance with the Belgian auditing standards, as issued by the "Institut des Reviseurs d'Entreprises". Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, taking into account the legal and regulatory requirements applicable to consolidated financial statements in Belgium.

In accordance with those standards, we considered the group's administrative and accounting organisation, as well as its internal control procedures. We have obtained all explanations and information required for our audit. We examined, on a test basis, evidence supporting the amounts in the consolidated financial statements. We assessed the accounting principles used, the basis of consolidation and significant estimates made by the enterprise, as well as the overall presentation of the consolidated financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the consolidated financial statements present fairly the company's net worth and consolidated financial position as of the 31st of March 2000 and the consolidated results of its operations for the year then ended, in accordance with the applicable legal and regulatory requirements in Belgium and the information given in the notes to the consolidated financial statements is properly presented.

OTHER CERTIFICATION

We supplement our report with the following certification which do not modify our audit opinion on the consolidated financial statements.

No consolidated directors' report has been prepared in the specific context of drawing up the consolidated financial statements ended the 31st of March 2000.

November 15th, 2000

TECNITROM Estrada National 252 2955 Pinal Novo PORTUGAL	Α	15.00	0.00

1 Reason for Exclusion

- 2 Proportion of capital of those enterprises being held by both enterprises included in the consolidated accounts and persons acting in their own names but on behalf of these enterprises.
- 3 Where the composition of the consolidated aggregate is significantly influenced by changes in its percentage additional information are provided in statement V. (Article 18)

A. Subsidiary of minor importance

III. ENTERPRISES OTHER THAN SUBSIDIARIES AND ASSOCIATED ENTERPRISES

The enterprises stated below have not been mentioned under the numbers I and II at the notes. They are enterprises included in or excluded from consolidation (by application of the Royal Decree of 6th March 1990, Article 13 and Article 14.) holding a 10%-interest in the capital amount, either by themselves or via a person acting in his own name but on behalf of theses enterprises. Those data can be omitted when they are not material in respect of the principle of a true and fair view.

Name, full address of registered office and for enterprises governed by the Belgian law, the V.A.T. number or the national number	Share in the capital (in %)	Data from the mos	st recent perio are avai	d for which annua lable	l accounts

IV. CONSORTIUM

Information regarding the enterprises which form part of the consortium. For each enterprise shall be disclosed: the method used for inclusion into the accounts of the consortium together with the list of subsidiaries, the method of their inclusion into the accounts of the consolidation as well as the proportion of capital held.

NONE

V. CONSOLIDATION CRITERIA AND CHANGES IN THE CONSOLIDATION SCOPE

A. Information and the criteria governing the application of full consolidation, proportional consolidation and the equity method as well as those cases in which these criteria are departed from, and justification for such departures (by application of Article 69 I. of the Royal Decree of 6 March 1990).

Full consolidation

The full consolidation method is used whenever the following conditions are met: - the majority of the voting rights is held on the total shares of a company, or - a de facto or de jure controlling influence is held in a company.

Proportional integration

This method is used for companies which are owned and managed by a limited number of shareholders who have agreed among themselves that decisions influencing the way in which the company is managed may only be taken with their joint approval.

Equity Method

This method is used whenever the criteria for full consolidation or proportional integration are not met. It applies to companies in which a consolidated company holds a participating interest and over which it exerts a significant influence.

B. Information which makes a comparison meaningful with the consolidated annual accounts of the previous financial period in case the composition of the consolidated aggregate in the course of the current financial period has changed significantly (by application of Article 18. of the Royal Decree of 6 March 1990

Not applicable

- VI. SUMMARY OF VALUATION RULES AND METHODS OF CALCULATING OF DEFERRED TAXES
- Disclosure of the criteria governing the valuation of the various items in the consolidated annual accounts, and in particular:
 - the application and adjustments of depreciation, amounts written down and provisions for liabilities and charges, and revaluations (pursuant to Article 69 VI.a. of the Royal Decree of 6 March 1990)
 - the bases of translation applied to express in the consolidated accounts items which are, or originally were, expressed in a currency other than the currency in which the consolidated accounts are stated, and the translation in the consolidated accounts of the accounting statements of subsidiaries and associated enterprises governed by foreign law. (pursuant to Article 69 VI.b. of the Royal Decree of 6 March 1990)

The valuation rules used are the valuation rules of the parent company determined in conformity with Chapter II of the Royal Decree of October 8, 1976.

Particular rules.

Formation expenses are immediately expensed.

Intangible assets include research and development expenses which are capitalized and depreciated over a period not exceeding 5 years.

fixed assets are valued at acquisition cost less cumulative depreciation computed on a linear basis considering the following rates:

Buildings 10-20% Equipment 20-33.3% 20% Furniture Vehicles 33.3%

Participation's which are not consolidated are valued at acquisition costs less any permanent impairment value.

Inventory:

- raw materials are valued at lower of cost or NRV (net realizable value) with cost determined according to the weighted average method;
- work in progress is valued at lower of cost or NRV. Cost includes direct and indirect production costs. The completed contract method is used to recognize long-term contract revenues and profits.

Monetary assets and liabilities in foreign currency are valued using the closing rate method. Non-monetary assets and liabilities are maintained at historical rate. Unrealized exchange losses are expensed. Unrealized exchange gains are deferred.

Consolidated financial statements of subsidiaries in foreign currencies are translated according to the closing rate method.

CONSO 12.

 - to prices of raw materials or goods purchased for resale
 - to other similar transactions
- B. Commitments relating to technical guarantees, in respect of sales or services already provided

NONE

C. Significant litigation and other significant commitments

Since 1997 the company has a litigation with the tax authorities regarding a loss realized on the sale of bonds reimbursable in shares. The Ministry of Finance refuses the tax deduction of an amount of 53,354.834 BEF and qualifies the loss on bonds as a reduction in value of shares.

The company has introduced a complaint as of August 31, 1998 on which no answer has been received as of today. Expecting a positive outcome, the Board of Directors has decided not to record a provision for the outstanding risk estimated at 30 million BEF.

D. Commitments with respect to retirement and survivors' pensions in favor of their personnel or executives, at the expense of the enterprises included in the consolidation

NONE

None

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL DATA BASIS OF PRESENTATION

The following unaudited pro forma consolidated financial data for Frequency Electronics, Inc. is based on FEI's historical financial statements adjusted to reflect the acquisition of Gillam S.A. The unaudited pro forma consolidated statement of operations is presented for the year ended April 30, 2000, including the results of continuing operations for Gillam for the year ended March 31, 2000, Gillam's fiscal year end. The statement of operations reflects the acquisition as if it had occurred as of May 1, 1999. The unaudited pro forma balance sheet reflects the Gillam acquisition as of April 30, 2000 and uses the March 31, 2000 consolidated balance sheet of Gillam. For both the balance sheet and the statement of operations, the historical financial statements of Gillam have been adjusted and reclassified to conform with US generally accepted accounting principles.

The Gillam acquisition was consummated pursuant to the terms of a Share Purchase Agreement dated as of August 29, 2000. Under terms of the agreement, FEI paid \$8,400,264 in cash and issued 154,681 shares of common stock to acquire the outstanding stock of Gillam. Based upon the market value of FEI's common stock on July 25, 2002, the Share Purchase Agreement may require FEI to issue to the Gillam shareholders up to 35,000 additional shares of FEI common stock. Because the shares issued to the Gillam shareholders are restricted shares, they have been valued at approximately 65% of the average market price of FEI common stock, as quoted on the American Stock Exchange, for the day immediately prior to, the day of, and the day immediately after the announcement of the acquisition. In addition, FEI paid approximately \$470,000 in direct transaction costs. Thus, the total purchase price is approximately as follows:

	(in thousands)	
Cash paid for Gillam shares		\$ 8,400
Fair value of restricted shares	issued	3,465
Direct transaction costs		470
Total purchase price		\$12,335
		======

The purchase price will be allocated as follows:

Net assets	aco	quired				\$ 7,774
Allocation	to	tangible	and	intangible	assets	4,561
						\$12,335
						======

The allocation to certain tangible assets, such as buildings and inventory, and to certain intangible assets such as patents, the customer base and goodwill, will be based upon a valuation which has not yet been completed. For purposes of the pro forma presentation, the entire \$4,561,000 excess of purchase price over net assets acquired has been classified as goodwill and is amortized over a 15 year period. Once the valuation process is complete, this amount will be reclassified and the actual amortization may differ from the amount used in the pro forma statement of operations.

The pro forma adjustments are based upon available information and assumptions management believes are reasonable under the circumstances. The unaudited pro forma consolidated financial data and accompanying notes should be read in conjunction with the historical audited and unaudited financial statements and related notes of Frequency Electronics and the historical audited consolidated financial statements and related notes of Gillam S.A., as presented elsewhere in this Form 8K/A. The pro forma financial data does not purport to present what actual results of operations or actual financial position would have been if the transaction described above in fact occurred on such dates or to project the results of operations or financial position for any future period or date.
