

## Frequency Electronics, Inc. Announces First Quarter Fiscal Year 2022 Results

September 13, 2021

MITCHEL FIELD, N.Y., Sept. 13, 2021 (GLOBE NEWSWIRE) -- Frequency Electronics, Inc. ("FEI" or the "Company") (NASDAQ-FEIM) is reporting revenues of approximately \$13.0 million for the first quarter ended July 31, 2021. Operating loss for the three months ended July 31, 2021 was \$1.7 million compared to an operating loss of \$337,000 for the three months ended July 31, 2020. Net loss for the three months ended July 31, 2021 was \$1.6 million or (\$0.17) per share compared to a net loss of \$262,000 or (\$0.03) per share for the three months ended July 31, 2020.

FEI CEO Stan Sloane commented, "Underlying financial trends were stable this quarter and while unusual legal expenses impacted income and cash generation, the bulk of these expenses are now behind us. The COVID pandemic also impacted us in the quarter, due mostly to supply chain issues and customer delays in processing new contracts. Most exciting this quarter is the new technology we have embarked upon, highlighted in our August 18, 2021 press release, that will result in a new and very advanced atomic clock for space, defense and commercial application. This pulsed, optically pumped Rubidium atomic clock will be a game changer in the marketplace. We continue to evaluate other advanced technologies for potential development, as well."
