Frequency Electronics, Inc. Announces Contract Increase for Approximately $5 Million

November 24, 2025

GARDEN GROVE, Calif., Nov. 24, 2025 (GLOBE NEWSWIRE) -- FEI-Zyfer, Inc., a wholly-owned subsidiary of Frequency Electronics, Inc. ("FEI" or the "Company") (NASDAQ-FEIM), a leading provider of precision timing and frequency control products, is pleased to announce the receipt of two follow-on change orders with a combined value of approximately $4.75M for on-going work on the development and manufacture of a customized version of our high-precision airborne time, synchronization, and frequency distribution systems, with deliveries scheduled through 2027. Our airborne-rated systems provide the ability to operate in high-dynamic environments, and work with the latest Assured-Position, Navigation and Timing (A-PNT) and Alternative (Alt-PNT) avionics. The system will support collaborative airborne operations and cooperative engagement scenarios for Joint Airborne SIGINT Architecture (JASA) Time, Frequency, Navigation and Geodesy (TFNG) and Airborne Overhead Cooperative Operations (AOCA) COMINT JICD requirements. The order additions to the base contract highlight acknowledgment by the Prime Contractor and the Government of our work to date, and their commitment to move forward with our on-going development and deliveries.

Tom McClelland, President and CEO at Frequency Electronics, commented, "We are pleased to be able to support our customer and the U.S. Government for this mission-critical program. Our investment in the development of a revolutionary Rubidium Atomic Clock, optimized for use in the most demanding airborne applications, represents a quantum leap forward in clock design for field-deployable systems. No other field-deployable atomic clock on the market can match its performance."

About Frequency Electronics
Frequency Electronics, Inc. (FEI) is a world leader in the design, development and manufacture of high precision timing, frequency generation and RF control products for space and terrestrial applications. FEI's products are used in satellite payloads and in other commercial, government and military systems including C4ISR and electronic warfare, missiles, UAVs, aircraft, GPS, secure communications, energy exploration and wireline and wireless networks. FEI-Zyfer provides GPS and secure timing capabilities for critical military and commercial applications; FEI-Elcom Tech provides Electronic Warfare ("EW") sub-systems and state-of-the-art RF and microwave products. FEI has received over 100 awards of excellence for achievements in providing high performance electronic assemblies for over 150 space and DOD programs. The Company invests significant resources in research and development to expand its capabilities and markets.

FEI's Mission Statement: "Our mission is to transform discoveries and demonstrations made in research laboratories into practical, real-world products. We are proud of a legacy which has delivered precision time and frequency generation products, for space and other world-changing applications that are unavailable from any other source. We aim to continue that legacy while adapting our products and expertise to the needs of the future. With a relentless emphasis on excellence in everything we do, we aim, in these ways, to create value for our customers, employees, and stockholders."

Forward-Looking Statements

The statements in this press release regarding future earnings and operations and other statements relating to the future constitute "forward-looking" statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. Factors that would cause or contribute to such differences include, but are not limited to, our inability to integrate operations and personnel, actions by significant customers or competitors, general domestic and international economic conditions, reliance on key customers, continued acceptance of the Company's products in the marketplace, competitive factors, new products and technological changes, product prices and raw material costs, dependence upon third-party vendors, other supply chain related issues, increasing costs for materials, operating related expenses, competitive developments, changes in manufacturing and transportation costs, the availability of capital, the outcome of any litigation and arbitration proceedings, and failure to maintain an effective system of internal controls over financial reporting. The factors listed above are not exhaustive and should be read in conjunction with the other cautionary statements that are included in this release and in our filings with the Securities and Exchange Commission. The Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2024, filed on August 2, 2024 with the Securities and Exchange Commission includes additional factors that could materially and adversely impact the Company's business, financial condition and results of operations, as such factors are updated from time to time in our periodic filings with the Securities and Exchange Commission, which are accessible on the Securities and Exchange Commission's website at www.sec.gov. Moreover, the Company operates in a very competitive and rapidly changing environment. New factors emerge from time to time and it is not possible for management to predict the impact of all these factors on the

Company's business, financial condition or results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not rely on forward-looking statements as a prediction of actual results. Any or all of the forward-looking statements contained in this press release and any other public statement made by the Company or its management may turn out to be incorrect. The Company expressly disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
