Frequency Electronics Inc. Announces Space Mission Contract Award Valued at Approximately \$7 million

Mar 25, 2026

MITCHEL FIELD, N.Y., March 25, 2026 (GLOBE NEWSWIRE) -- Frequency Electronics, Inc. ("FEI" or the "Company") (NASDAQ-FEIM), a leading provider of precision timing and frequency control products for space and terrestrial applications, is pleased to announce the award of a new contract, for approximately \$7 million, for compact, highly precise, atomic clocks to support position, navigation and timing (PNT) for a lunar space mission. Further, FEI anticipates additional awards of greater magnitude to support similar programs in the future.

FEI President and CEO, Tom McClelland, commented, "We are extremely pleased with this opportunity to deliver mission-critical technology to develop infrastructure on and around the Moon, which is a first step toward other deep space missions. This award is an excellent example of FEI's ability to leverage our long-standing market leadership in space qualified atomic clocks to service exciting new and potentially very large end markets. New Space missions of this type will propel FEI to become a substantially larger company in the years to come, as we layer in new growth opportunities, which are built upon our industry-leading capabilities, on top of a strong and growing core business. We look forward to sharing more such awards in the coming quarters. Lastly, this award highlights that PNT and space opportunities are not mutually exclusive, and we expect to demonstrate numerous other applications that show our ability to participate in multiple domains in the same program. The sky is definitely not the limit for FEI."

About Frequency Electronics

Frequency Electronics, Inc. (FEI) is a world leader in the design, development and manufacture of high precision timing, frequency generation and RF control products for space and terrestrial applications. FEI's products are used in satellite payloads and in other commercial, government and military systems including C4ISR and electronic warfare, missiles, UAVs, aircraft, GPS, secure communications, energy exploration and wireline and wireless networks. FEI-Zyfer provides GPS and secure timing capabilities for critical military and commercial applications; FEI-Elcom Tech provides Electronic Warfare ("EW") sub-systems and state-of-the-art RF and microwave products. FEI has received over 100 awards of excellence for achievements in providing high performance electronic assemblies for over 150 space and DOD programs. The Company invests significant resources in research and development to expand its capabilities and markets.

FEI's Mission Statement: "Our mission is to transform discoveries and demonstrations made in research laboratories into practical, real-world products. We are proud of a legacy which has delivered precision time and frequency generation products, for space and other world-changing applications that are unavailable from any other source. We aim to continue that legacy while adapting our products and expertise to the needs of the future. With a relentless emphasis on excellence in everything we do, we aim, in these ways, to create value for our customers, employees, and stockholders."

Forward-Looking Statements

The statements in this press release regarding future earnings and operations and other statements relating to the future constitute "forward-looking" statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. Factors that would cause or contribute to such differences include, but are not limited to, our inability to integrate operations and personnel, actions by significant customers or competitors, general domestic and international economic conditions, reliance on key customers, continued acceptance of the Company's products in the marketplace, competitive factors, new products and technological changes, product prices and raw material costs, dependence upon third-party vendors, other supply chain related issues, increasing costs for materials, operating related expenses, competitive developments, changes in manufacturing and transportation costs, the availability of capital, the outcome of any litigation and arbitration proceedings, and failure to maintain an effective system of internal controls over financial reporting. The factors listed above are not exhaustive and should be read in conjunction with the other cautionary statements that are included in this release and in our filings with the Securities and Exchange Commission. The Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2024, filed on August 2, 2024 with the Securities and Exchange Commission includes additional factors that could materially and adversely impact the Company's business, financial condition and results of operations, as such factors are updated from time to time in our periodic filings with the Securities and Exchange Commission, which are accessible on the Securities and Exchange Commission's website at www.sec.gov. Moreover, the Company operates in a very competitive and rapidly changing environment. New factors emerge from time to time and it is not possible for management to predict the impact of all these factors on the Company's business, financial condition or results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not rely on forward-looking statements as a prediction of actual results. Any or all of the forward-looking statements contained in this press release and any other public statement made by the Company or its management may turn out to be incorrect. The Company expressly disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
