SECURITIES AND EXCHANGE COMMISSION**
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark one)

QUARTERLY REPORT PURSUANT TO SECTION 13 or 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period ended July 31, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 or 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-8061

FREQUENCY ELECTRONICS, INC.

(Exact name of Registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

11-1986657

(I.R.S. Employer Identification No.)

55 CHARLES LINDBERGH BLVD., MITCHEL FIELD, N.Y.

(Address of principal executive offices)

11553

(Zip Code)

Registrant's telephone number, including area code: **516-794-4500**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an "emerging growth company". See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Emerging growth company

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

The number of shares outstanding of Registrant's Common Stock, par value \$1.00 as of September 8, 2017 – 8,729,682

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

NOTE A – CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of management of Frequency Electronics, Inc. (“the Company”), the accompanying unaudited condensed consolidated interim financial statements reflect all adjustments (which include only normal recurring adjustments) necessary to present fairly, in all material respects, the consolidated financial position of the Company as of July 31, 2017 and the results of its operations and cash flows for the three months ended July 31, 2017 and 2016. The April 30, 2017 condensed consolidated balance sheet was derived from audited financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report on Form 10-K for the year ended April 30, 2017, filed on July 31, 2017, and the financial statements and notes thereto. The results of operations for such interim periods are not necessarily indicative of the operating results for the full fiscal year.

NOTE B – DISCONTINUED OPERATIONS

In December 2016, the Company entered into a share purchase agreement with certain foreign counterparties with respect to a potential sale of Gillam-FEI, the Company’s Belgian subsidiary. However, these counterparties have not yet performed their obligations under that agreement. Because the counterparties have failed to perform their obligations under the share purchase agreement the Company has a right to terminate that share purchase agreement. The Company continues to negotiate with these counterparties to effectuate a closing of the transaction contemplated by the share purchase agreement, but the Company is also discussing a sale of the Gilliam business with other potential buyers. In April 2017, the Company decided to sell its Gilliam business as soon as practicable, and began contacting potential buyers other than the counterparty to the stock purchase agreement. The Company believes that the divestment is on a path to completion by the end of fiscal year 2018. Accordingly, the Company determined that the assets and liabilities of this reportable segment met the discontinued operations criteria in Accounting Standards Codification 205-20-45 for the year ended April 30, 2017, and Gillam’s results have been classified as discontinued operations in the accompanying Consolidated Statements of Operations and Comprehensive Income (Loss).

Summarized operating results for the Gilliam discontinued operations, for the three months ended July 31, 2017 and 2016 respectively, are as follows:

	<u>July 31,</u> <u>2017</u> <u>(UNAUDITED)</u>	<u>July 31,</u> <u>2016</u> <u>(UNAUDITED)</u>
	(In thousands except par value)	
Revenues	\$ 1,012	\$ 846
Cost of revenues	716	557
Gross Margin	296	289
Selling and administrative expenses	357	494
Research and development expenses	150	183
Operating Loss	(211)	(388)
Other income (expense):		
Investment (loss) income		
Other income (expense), net	(1)	(1)
Loss before provision for income taxes	(212)	(389)
Provision for income taxes	(4)	-
Net loss	<u>\$ (216)</u>	<u>\$ (389)</u>

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The carrying amounts of assets and liabilities for the Gillam discontinued operations are as follows:

	<u>July 31,</u> <u>2017</u>	<u>April 30,</u> <u>2017</u>
Cash and cash equivalents	\$ 1,118	\$ 575
Accounts receivable, net of allowance for doubtful accounts	2,679	3,202
Inventories, net	4,382	3,980
Prepaid expenses and other	233	408
Total current assets of discontinued operations	<u>\$ 8,412</u>	<u>\$ 8,165</u>
Property, plant and equipment, at cost, net of accumulated depreciation and amortization	\$ 557	\$ 555
Investments	15	14
Deferred taxes – non-current	-	-
Total non-current assets of discontinued operations	<u>\$ 572</u>	<u>\$ 569</u>
Accounts payable – trade	\$ 855	\$ 949
Accrued liabilities	1,421	1,300
Total current liabilities of discontinued operations	<u>2,276</u>	<u>2,249</u>
Deferred rent and other liabilities	1,316	1,215
Total non-current liabilities of discontinued operations	<u>\$ 1,316</u>	<u>\$ 1,215</u>

NOTE C – EARNINGS PER SHARE

Reconciliation of the weighted average shares outstanding for basic and diluted Earnings Per Share are as follows:

	<u>Three months ended July 31,</u>	
	<u>2017</u>	<u>2016</u>
Weighted average shares outstanding:		
Basic	8,826,026	8,762,355
Effect of dilutive securities	141,281	**
Diluted	<u>8,967,307</u>	<u>8,762,355</u>

** For the three-month period ended July 31, 2016, dilutive securities are excluded since the inclusion of such shares would be antidilutive due to the net loss for the period. The exercisable shares excluded are 1,200,625. The effect of dilutive securities for the period would have been 179,001.

The computation of diluted earnings per share in the other fiscal periods excludes those options and stock appreciation rights (“SARS”) with an exercise price in excess of the average market price of the Company’s common shares during the periods presented. The inclusion of such options and SARS in the computation of earnings per share would have been antidilutive. The number of excluded options and SARS were:

	<u>Three months ended July 31,</u>	
	<u>2017</u>	<u>2016</u>
Outstanding options and SARS excluded	<u>893,500</u>	<u>**</u>

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

NOTE D – COSTS AND ESTIMATED EARNINGS IN EXCESS OF BILLINGS, NET

At July 31, 2017 and April 30, 2017, costs and estimated earnings in excess of billings, net, consist of the following:

	<u>July 31, 2017</u>	<u>April 30, 2017</u>
	(In thousands)	
Costs and estimated earnings in excess of billings	\$ 7,940	\$ 8,890
Billings in excess of costs and estimated earnings	(243)	(926)
Net asset	<u>\$ 7,697</u>	<u>\$ 7,964</u>

Such amounts represent revenue recognized on long-term contracts that had not been billed at the balance sheet dates or represent a liability for amounts billed in excess of the revenue recognized. Amounts are billed to customers pursuant to contract terms, whereas the related revenue is recognized on the percentage of completion basis at the measurement date. In general, the recorded amounts will be billed and collected or revenue recognized within twelve months of the balance sheet date. Revenue on these long-term contracts is accounted for on the percentage of completion basis. During the three months ended July 31, 2017 and 2016, revenue recognized under percentage of completion contracts was approximately \$6.4 million and \$7.3 million, respectively. If contract losses are anticipated, costs and estimated earnings in excess of billings are reduced for the full amount of such losses when they are determinable.

NOTE E – TREASURY STOCK TRANSACTIONS

During the three month period ended July 31, 2017, the Company made contributions of 13,740 shares of its common stock held in treasury to the Company's profit sharing plan and trust under Section 401(k) of the Internal Revenue Code. Such contributions are in accordance with the Company's discretionary match of employee voluntary contributions to this plan. During the same period, the Company issued 844 shares from treasury upon the exercise of SARS by certain officers and employees of the Company.

NOTE F – INVENTORIES

Inventories, which are reported at the lower of cost or market, consist of the following:

	<u>July 31, 2017</u>	<u>April 30, 2017</u>
	(In thousands)	
Raw Materials and Component Parts	\$ 21,255	\$ 17,702
Work in Progress	4,924	7,340
Finished Goods	4,278	4,009
	<u>\$ 30,457</u>	<u>\$ 29,051</u>

As of July 31, 2017 and April 30, 2017, approximately \$29.5 million and \$28.2 million, respectively, of total inventory is located in the United States and \$0.9 million and \$0.8 million, respectively, is located in China. The Company buys inventory in bulk quantities which may be used over significant time periods; due to its nature the inventory does not deteriorate.

NOTE G – SEGMENT INFORMATION

The Company operates under two reportable segments based on the geographic locations of its subsidiaries:

- (1) FEI-NY – operates out of New York and its operations consist principally of precision time and frequency control products used in three principal markets- communication satellites (both commercial and U.S. Government-funded); terrestrial cellular telephone or other ground-based telecommunication stations and other components and systems for the U.S. military.
- (2) FEI-Zyfer – operates out of California and its products incorporate Global Positioning System (GPS) technologies into systems and subsystems for secure communications, both government and commercial, and other locator applications. This segment also provides sales and support for the Company's wireline telecommunications family of products, including US5G, which are sold in the United States market.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The FEI-NY segment also includes the operations of the Company's wholly-owned subsidiaries, FEI-Elcom and FEI-Asia. FEI-Asia functions as a manufacturing facility for the FEI-NY segment with historically minimal sales to outside customers. Beginning in late fiscal year 2014, FEI-Asia began shipping higher volumes of product to third parties as a contract manufacturer. FEI-Elcom, in addition to its own product line, provides design and technical support for the FEI-NY segment's satellite business.

The Company's Chief Executive Officer measures segment performance based on total revenues and profits generated by each geographic location rather than on the specific types of customers or end-users. Consequently, the Company determined that the segments indicated above most appropriately reflect the way the Company's management views the business.

The tables below present information about reported segments with reconciliation of segment amounts to consolidated amounts as reported in the statement of income or the balance sheet for each of the periods (in thousands):

	Three months ended July 31,	
	2017	2016
Revenues:		
FEI-NY	\$ 9,160	\$ 9,982
FEI-Zyfer	4,272	2,346
less intercompany revenues	(1,409)	(766)
Consolidated revenues	<u>\$ 12,023</u>	<u>\$ 11,562</u>
Operating (loss) profit :		
FEI-NY	\$ (400)	\$ (173)
FEI-Zyfer	691	(185)
Corporate	(111)	(50)
Consolidated operating (loss) profit	<u>\$ 180</u>	<u>\$ (408)</u>
	July 31, 2017	April 30, 2017
Identifiable assets:		
FEI-NY (approximately \$1.7 million in China)	\$ 62,756	\$ 64,828
FEI-Zyfer	12,128	10,427
less intersegment balances	(12,577)	(11,992)
Corporate	51,765	50,056
Consolidated identifiable assets	<u>\$ 114,072</u>	<u>\$ 113,319</u>

NOTE H – INVESTMENT IN MORION, INC.

The Company has an investment in Morion, Inc., ("Morion") a privately-held Russian company, which manufactures high precision quartz resonators and crystal oscillators. The Company's investment consists of 4.6% of Morion's outstanding shares, accordingly, the Company accounts for its investment in Morion on the cost basis. This investment is included in other assets in the accompanying balance sheets. During the three months ended July 31, 2017 and 2016, the Company acquired product from Morion in the aggregate amount of approximately \$64,000 and \$81,000, respectively, and the Company sold product and training services to Morion in the aggregate amount of approximately \$182,000 and \$10,000, respectively. (See discussion of revenues recognized under the license agreement in the paragraph below.) At July 31, 2017 there were neither amounts owed nor receivable related to Morion. During the three months ended July 31, 2017 the Company received a dividend from Morion in the amount of approximately \$51,000, and no dividend was received for the comparable period of the previous fiscal year.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

On October 22, 2012, the Company entered into an agreement to license its rubidium oscillator production technology to Morion. The agreement required the Company to sell certain fully-depreciated production equipment previously owned by the Company and to provide training to Morion employees to enable Morion to produce a minimum of 5,000 rubidium oscillators per year. Morion will pay the Company approximately \$2.7 million for the license and the equipment plus 5% royalties on third party sales for a 5-year period following an initial production run. During the same 5-year period, the Company commits to purchase from Morion a minimum of approximately \$400,000 worth of rubidium oscillators per year although Morion is not obligated to sell that amount to the Company. During the fiscal year ended April 30, 2016, sales to Morion included \$375,000 for product and training services under this agreement. Per the amended agreement, the balance of \$1 million for the transfer of the license will be due once the United States Department of State (“the State Department”) approves the removal of certain provisions of the original agreement. The State Department has approved the technology transfer called for under the agreement.

On March 29, 2016, the Company renegotiated the \$1 million amendment under the original agreement dated October 22, 2012 to \$602,000 due to the U.S. Government easing of export regulations. Of this amount \$392,500 was billed and paid during fiscal year 2016 and the balance of \$210,000 was billed during fiscal year 2017 and was subsequently collected.

NOTE I – FAIR VALUE OF FINANCIAL INSTRUMENTS

The cost, gross unrealized gains, gross unrealized losses and fair market value of available-for-sale securities at July 31, 2017 and April 30, 2017, respectively are as follows (in thousands):

	July 31, 2017			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Fixed income securities	\$ 1,516	\$ 78	\$ -	\$ 1,594
Equity securities	-	-	-	-
	<u>\$ 1,516</u>	<u>\$ 78</u>	<u>\$ -</u>	<u>\$ 1,594</u>

	April 30, 2017			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Fixed income securities	\$ 1,516	\$ 60	\$ -	\$ 1,576
Equity securities	5,230	1,248	(239)	6,239
	<u>\$ 6,746</u>	<u>\$ 1,308</u>	<u>\$ (239)</u>	<u>\$ 7,815</u>

The following table presents the fair value and unrealized losses, aggregated by investment type and length of time that individual securities have been in a continuous unrealized loss position (in thousands):

	Less than 12 months		12 Months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
July 31, 2017						
Fixed Income Securities	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Equity Securities	-	-	-	-	-	-
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
April 30, 2017

Equity Securities	219	(9)	1,024	(230)	1,243	(239)
	<u>\$ 219</u>	<u>\$ (9)</u>	<u>\$ 1,024</u>	<u>\$ (230)</u>	<u>\$ 1,243</u>	<u>\$ (239)</u>

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The Company regularly reviews its investment portfolio to identify and evaluate investments that have indications of possible impairment. The Company does not believe that its investments in marketable securities with unrealized losses at July 31, 2017 are other-than-temporary due to market volatility of the security's fair value, analysts' expectations and the Company's ability to hold the securities for a period of time sufficient to allow for any anticipated recoveries in market value.

During the three months ended July 31, 2017 the Company sold or redeemed available-for-sale securities in the amounts of \$6.3 million, realizing gains of approximately \$1 million. During the three months ended July 31, 2016, the Company neither sold nor redeemed available-for-sale securities.

Maturities of fixed income securities classified as available-for-sale at July 31, 2017 are as follows, at cost (in thousands):

Current	\$	-
Due after one year through five years		201
Due after five years through ten years		1,315
	\$	<u>1,516</u>

The fair value accounting framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. All of the Company's investments in marketable securities are valued on a Level 1 basis.

NOTE J – RECENT ACCOUNTING PRONOUNCEMENTS

In January 2017, the Financial Accounting Standards Board ("the FASB") issued Accounting Standards Update ("ASU") 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* ("ASU 2017-04"), which simplifies how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Under ASU 2017-04 goodwill impairment will be tested by comparing the fair value of a reporting unit with its carrying amount, and recognizing an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. The new guidance must be applied on a prospective basis and is effective for periods beginning after December 15, 2019, with early adoption permitted. The Company will not be adopting ASU 2017-04 early, and is in the process of determining the effect that ASU 2017-04 may have, however, the Company expects the new standard to have an immaterial effect on its financial statements.

In March 2016, the FASB amended the existing accounting standards for stock-based compensation, ASU 2016-09, *Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The amendments impact several aspects of accounting for share-based payment transactions, including the income tax consequences, forfeitures, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This guidance requires a mix of prospective, modified retrospective, and retrospective transition to all annual and interim periods presented and is effective for the Company in the next fiscal year. The Company has adopted this pronouncement starting in the quarter ending July 31, 2017.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

In February 2016, the FASB issued ASU No. 2016-02 *Leases (Topic 842)* (“ASU 2016-02”). The objective of the update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The standard requires a modified retrospective transition approach for existing leases. The amendments of ASU 2016-02 are effective for fiscal years beginning after December 31, 2018 and early adoption is permitted. The Company is currently evaluating the impact of this standard on our consolidated financial statements, however the Company has minimal leases and expects that when adopted beginning in fiscal year 2019, the new standard to have an immaterial effect on the Company’s financials.

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory* (“ASU 2015-11”) which changes the measurement principle for inventory from the lower of cost or market to the lower of cost or net realizable value. ASU 2015-11 defines net realizable value as estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The new guidance must be applied on a prospective basis and is effective for periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the effect that the new guidance will have on its consolidated financial statements, however based upon the preliminary work that has been done when adopted this pronouncement is expected to have minimal, if any effect, on the financial statements. This pronouncement will be adopted for the Company’s next fiscal year.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. (“ASU 2014-09”) ASU 2014-09 eliminates most of the existing industry-specific revenue recognition guidance and significantly expands related disclosures. The required disclosures will include both quantitative and qualitative information about the amount, timing and uncertainty of revenue from contracts with customers and the significant judgments used. Entities can retrospectively apply ASU 2014-09 or use an alternative transition method. In July 2015, the FASB approved a one-year deferral of the effective date of ASU 2014-09. ASU 2014-09 is effective for public companies for annual reporting periods beginning on or after December 15, 2017, and for the Company, must be adopted for its fiscal year 2019 beginning on May 1, 2018. The Company is currently evaluating the impact that ASU 2014-09 may have on its financial statements when the statement is adopted for its fiscal year 2019.

NOTE K – CREDIT FACILITY

On January 30, 2017, the Company repaid the principal balance due on its credit facility, dated June 6, 2013, with JPMorgan Chase Bank, N.A. Subsequently, the Company voluntarily terminated this credit facility with JPMorgan Chase Bank, N.A to reduce the fees and expenses associated with maintaining that facility. The Company did not incur any early termination fees associated with its voluntary termination of this credit facility. If, in the future, the Company determines that it would be beneficial to have a credit facility in place, the Company believes that alternative facilities are available. As at July 31, 2017, the Company had available credit at variable terms based on its securities holdings under an advisory arrangement, under which no borrowings have been made.

NOTE L – VALUATION ALLOWANCE ON DEFERRED TAX ASSETS

Deferred income taxes arise from temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, which will result in taxable or deductible amounts in the future. In evaluating our ability to recover deferred tax assets in the jurisdiction from which they arise, we consider all positive and negative evidence, including the reversal of deferred tax liabilities, projected future taxable income, tax planning strategies, and results of recent operations. The carrying value of the Company’s net deferred tax assets, assumes that the Company will be able to generate sufficient future taxable income in certain jurisdictions, based on estimates and assumptions. If these estimates and assumptions change in the future, the Company may be required to record an additional valuation allowances against its deferred tax assets resulting in additional income tax expense in the consolidated statement of operations, or conversely to further reduce its existing valuation allowance resulting in less income tax expense. The Company evaluates the realizability of deferred tax assets and assesses the need for additional valuation allowance quarterly. The valuation allowance of approximately \$3.3 million as of July 31, 2017 is intended to provide for uncertainty regarding the ultimate realization of U.S. state investment credits carryovers, and foreign net operating loss and tax credit carryovers.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

The statements in this quarterly report on Form 10-Q regarding future earnings and operations and other statements relating to the future constitute "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1933 or the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The words "believe," "may," "will," "could," "should," "would," "anticipate," "estimate," "expect," "project," "intend," "objective," "seek," "strive," "might," "likely result," "build," "grow," "plan," "goal," "expand," "position," or similar words, or the negatives of these words, or similar terminology, identify forward-looking statements. All statements by the Company that address activities, events or developments that the Company expects or anticipates will occur in the future, including all statements by the Company regarding our expected financial position, revenues, cash flows and other operating results, business position, legal proceedings or similar matters, are forward-looking statements. These statements are based on assumptions that the Company believes are reasonable, but are subject to a wide range of risks and uncertainties, and a number of factors could cause the Company's actual results to differ materially from those expressed in the forward-looking statements referred to above. Factors that would cause or contribute to such differences include, but are not limited to, continued acceptance of the Company's products in the marketplace, competitive factors, new products and technological changes, product prices and raw material costs, dependence upon third-party vendors, competitive developments, changes in manufacturing and transportation costs, changes in contractual terms, the availability of capital, and other risks detailed in the Company's periodic report filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which relate only to events as of the date on which the statements are made and which reflect management's analysis, judgments, belief, or expectation only as of such date. By making these forward-looking statements, the Company undertakes no obligation to update these statements after the date such statement was first made.

Critical Accounting Policies and Estimates

The Company's significant accounting policies are described in Note 1 to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended April 30, 2017, filed on July 31, 2017. The Company believes its most critical accounting policies to be the recognition of revenue and costs on production contracts and the valuation of inventory. Each of these areas requires the Company to make use of reasoned estimates including estimating the cost to complete a contract, the realizable value of its inventory or the market value of its products. Changes in estimates can have a material impact on the Company's financial position and results of operations.

Revenue Recognition

Revenues under larger, long-term contracts which generally require billings based on achievement of milestones rather than delivery of product, are reported in operating results using the percentage of completion method. On fixed-price contracts, which are typical for commercial and U.S. Government satellite programs and other long-term U.S. Government projects, and which require initial design and development of the product, revenue is recognized on the cost-to-cost method. Under this method, revenue is recorded based upon the ratio that incurred costs bear to total estimated contract costs with related cost of sales recorded as the costs are incurred. Each month management reviews estimated contract costs through a process of aggregating actual costs incurred and estimating additional costs to completion based upon the current available information and status of the contract. The effect of any change in the estimated gross margin percentage for a contract is reflected in revenues in the period in which the change is known. Provisions for the full amount of anticipated losses on contracts are made in the period in which they become determinable.

On production-type orders, revenue is recorded as units are delivered with the related cost of sales recognized on each shipment based upon a percentage of estimated final program costs.

Changes in job performance on long-term contracts and production-type orders may result in revisions to costs and income and are recognized in the period in which revisions are determined to be required. Provisions for anticipated losses on customer orders are made in the period in which they become determinable.

For customer orders in the Company's FEI-Zyfer segment or smaller contracts or orders in the FEI-NY segment, sales of products and services to customers are reported in operating results based upon (i) shipment of the product or (ii) performance of the services pursuant to terms of the customer order. When payment is contingent upon customer acceptance of the installed system, revenue is deferred until such acceptance is received and installation completed.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
(Continued)

Costs and Expenses

Contract costs include all direct material, direct labor costs, manufacturing overhead and other direct costs related to contract performance. Selling, general and administrative costs are charged to expense as incurred.

Inventory

In accordance with industry practice, inventoried costs contain amounts relating to contracts and programs with long production cycles, a portion of which will not be realized within one year. Inventory write downs are established for slow-moving, obsolete items and costs incurred on programs for which production-level orders cannot be determined as probable. Such write downs are based upon management's experience and expectations for future business. Any changes arising from revised expectations are reflected in cost of sales in the period the revision is made.

Marketable Securities

All of the Company's investments in marketable securities are Level 1 securities which trade on public markets and have current prices that are readily available. In general, investments in fixed price securities are only in the commercial paper of financially sound corporations or the bonds of U.S. Government agencies. Although the value of such investments may fluctuate significantly based on economic factors, the Company's own financial strength enables it to wait for the securities to either recover their value or to mature such that any interim unrealized gains or losses are deemed to be temporary.

RESULTS OF OPERATIONS

The table below sets forth for the respective three month periods ended July 31, 2017 and 2016 the percentage of consolidated revenues represented by certain items in the Company's consolidated statements of operations:

	Three months ended July 31,	
	2017	2016
Revenues		
FEI-NY	76.2%	86.3%
FEI-Zyfer	35.5	20.3
Less intersegment revenues	(11.7)	(6.6)
	100.0	100.0
Cost of revenues	62.4	66.9
Gross margin	37.6	33.1
Selling and administrative expenses	22.6	24.5
Research and development expenses	13.5	12.1
Operating profit (loss)	1.5	(3.5)
Other income, net	9.4	0.4
Provision (benefit) for income taxes	4.0	(0.4)
Income (loss) from continuing operations	6.9	(2.7)
(Loss) from discontinued operations, net of tax	(1.8)	(3.4)
Net income (loss)	5.1%	(6.1)%

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
(Continued)

Revenues

	Three months ended July 31, (in thousands)			
	2017	2016	Change	
FEI-NY	\$ 9,160	\$ 9,982	\$ (822)	(8%)
FEI-Zyfer	4,272	2,347	1,925	82%
Intersegment revenues	(1,409)	(767)	(642)	84%
	\$ 12,023	\$ 11,562	\$ 461	4%

For the three months ended July 31, 2017, revenues from commercial and U.S. Government satellite programs decreased approximately \$1.1 million over the same period of fiscal year 2017, and accounted for approximately 43% of consolidated revenues compared to approximately 55% in fiscal 2017. Revenues on these contracts are recognized primarily under the percentage of completion method. Revenues from the satellite market are recorded in the FEI-NY segment. Revenues from non-space U.S. Government/Department of Defense ("DOD") customers, which are recorded in both the FEI-NY and FEI-Zyfer segments, increased \$1.2 million over the same period of fiscal 2017, and accounted for approximately 38% of consolidated revenues compared to approximately 29% in fiscal 2017. Other commercial and industrial revenues in the fiscal year 2018 period accounted for approximately 19% of consolidated revenues compared to 16% in the prior year. Intersegment revenues are eliminated in consolidation.

Based on the Company's current backlog, satellite payload business revenues for fiscal year 2018 are expected to be lower for the full year compared to the prior fiscal year, however satellite payload revenues will remain the dominant portion of the Company's business during the current year with substantial revenue growth to follow when previously delayed and new satellite programs are released. Revenues from non-space U.S. Government/DOD customers are expected to increase going forward as additional funding is received for several significant U.S. Government programs.

Gross margin

	Three months ended July 31, (in thousands)			
	2017	2016	Change	
GM Rate	\$ 4,521 37.6%	\$ 3,825 33.1%	\$ 696	18%

For the three month period ended July 31, 2017 gross margin and gross margin rate increased over the same period in fiscal 2017 primarily due to increase in secure communication product sales, favorable product mix and effective cost management.

Selling and administrative expenses

	Three months ended July 31,			
	2017	2016	Change	
	\$ 2,712	\$ 2,832	\$ (120)	(4%)

For the three-month periods ended July 31, 2017 and 2016, selling and administrative ("SG&A") expenses were approximately 23% and 25%, respectively, of consolidated revenues. Reductions in corporate deferred compensation expense and reductions in multiple other SG&A were offset by increases in costs, consistent with higher revenues, in the FEI-Zyfer segment.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
(Continued)

Research and development expense

Three months ended July 31,				
	2017	2016	Change	
\$	1,629	\$ 1,401	\$ 228	16%

Research and development (“R&D”) expenditures represent investments intended to keep the Company’s products at the leading edge of time and frequency technology and enhance competitiveness for future revenues. R&D spending for the three months ended July 31, 2017, increased due to accelerated development of products addressing secure communications/command and control and next generation satellite payload product. The R&D rate for the period ending July 31, 2017 was 14% compared to 12% of sales for the same period of the previous fiscal year. The Company expects the accelerated level of R&D activity both internally and customer funded will continue over the current year and beyond to address new large opportunities in secure communications/command and control applications, next generation satellite payload product and additional DOD markets.

Operating profit (loss)

Three months ended July 31,				
	2017	2016	Change	
\$	180	\$ (408)	\$ 588	NM

The Company achieved higher gross margins on increased consolidated revenues and experienced decreased SG&A expenses in the first quarter ending July 31, 2017 compared to the same period in the previous fiscal year. The result was higher operating profit in spite of increased R&D spending year over year.

Other income (expense)

Three months ended July 31,				
	2017	2016	Change	
Investment income	\$ 1,154	\$ 92	\$ 1,062	NM
Interest expense	(21)	(42)	21	50%
Other income (expense), net	2	1	1	NM
	\$ 1,135	\$ 51	\$ 1,084	NM

Investment income is derived primarily from the Company’s holdings of marketable securities. Earnings on these securities may vary based on fluctuating interest rates and dividend payout levels and the timing of purchases or sales of securities. In the quarter ending July 31, 2017 the Company divested of all its holdings in equities securities in its investment account, and is in the process of evaluating its future cash management strategies. As a result, the Company recorded gains of approximately \$1.0 million during the three months ended July 31, 2017 as compared to no gain or loss in the same period of fiscal year 2017.

The decrease in interest expense for the three months ended July 31, 2017 compared to the same period of fiscal year 2017 is the result of there being no credit line borrowings during the quarter ending July 31, 2017.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
(Continued)

Income tax provision (benefit)

	Three months ended July 31,			
	2017	2016	Change	
	\$ 485	\$ (40)	\$ 525	NM
Effective tax rate on pre-tax book income:	36.9%	11.2%		

The effective tax rate for the quarter ended July 31, 2017 is 36.9% compared to 11.2% in the quarter ended July 31, 2016. The current and prior year effective tax rates primarily reflect the impact of deductible permanent differences included in the computation of taxable income and state income taxes. The Company utilizes the availability of R&D credits and the Domestic Productions Activity deduction in the U.S. to lower its effective tax rate.

The increase in the effective tax rate includes a discrete income tax provision primarily related to stock compensation in connection with the accounting guidance recently adopted by the Company. Consequently, for the three months ended July 31, 2017 and 2016, the Company recorded a continuing operations income tax provision of \$485 and an income tax benefit of \$(40), respectively.

Discontinued Operations

	Three months ended July 31,			
	2017	2016	Change	
Net Loss	\$ (216)	\$ (389)	\$ 173	(44%)

The above table represents the net loss for the Gillam segment accounted for as discontinued operations as presented in Note B to the financial statements. For the period ended July 31, 2017, as compared to the same periods of fiscal year 2017, sales increased approximately 20%, however the gross margin percentage decreased. SG&A expenses and R&D expenses decreased by approximately \$137,000 and \$33,000 respectively, compared to the prior fiscal year. These factors allowed Gillam to record a smaller loss for the period ended July 31, 2017 compared to the same period of fiscal year 2017.

LIQUIDITY AND CAPITAL RESOURCES

The Company's balance sheet continues to reflect a strong working capital position of \$62.4 million at July 31, 2017 and \$61.7 million at April 30, 2017. Included in working capital at July 31, 2017 and April 30 2017, is \$12.5 million and \$10.0 million, respectively, consisting of cash, cash equivalents and marketable securities. The Company's current ratio at July 31, 2017 is 8.7 to 1.

Cash provided by operations for the three months ended July 31, 2017 were \$3.2 million compared to the use of cash from operating activities of \$571,000 in the comparable fiscal year 2017 period. The increase cash flow in the fiscal year 2018 period resulted primarily from decrease in accounts receivable compared to the balances as of the end of the previous fiscal year. For the three-month periods ended July 31, 2017 and 2016, the Company incurred approximately \$144,000 and \$1.2 million, respectively, of non-cash operating expenses including depreciation and amortization, accruals for employee benefit programs and gain on sale of marketable securities.

Net cash provided by investing activities for the three months ended July 31, 2017, was \$5.8 million compared to \$1.1 million used in the same period of fiscal year 2017. Sales and redemptions of marketable securities totaled \$6.3 million for the three months ended July 31, 2017. There were no sales or redemptions of marketable securities during the three months ended July 31, 2016. In the fiscal quarters ended July 31, 2017 and 2016, the Company acquired property, plant and equipment in the amount of approximately \$450,000 and \$1.1 million, respectively. The Company may continue to invest cash equivalents as dictated by its investment and acquisition strategies.

FREQUENCY ELECTRONICS, INC. and SUBSIDIARIES
(Continued)

Net cash provided by financing activities for the three months ended July 31, 2017 and 2016 was \$1,000 for each period. For the three months ended July 31, 2017 and 2016, the Company realized \$1,000, for each period, from the tax benefits arising from the exercise of stock-based awards.

The Company has been authorized by its Board of Directors to repurchase up to \$5 million worth of shares of its common stock for treasury whenever appropriate opportunities arise but it has neither a formal repurchase plan nor commitments to purchase additional shares in the future. As of July 31, 2017, the Company has repurchased approximately \$4 million of its common stock out of the \$5 million authorization. For the three months ended July 31, 2017 and 2016, there were no repurchase of shares.

The Company will continue to expend resources to develop, improve and acquire products for space applications, guidance and targeting systems, and communication systems which management believes will result in future growth and profitability. During fiscal year 2017, the Company secured partial customer funding for a portion of its R&D efforts. The customer funds received in connection therewith appear in revenues and are not included in R&D expenses. For fiscal year 2018, the Company anticipates securing additional customer funding for a portion of its research and development activities, and will allocate internal funds depending on market conditions and identification of new opportunities as in fiscal 2017. The Company expects internally generated cash will be adequate to fund these development efforts. The Company may also pursue acquisitions to expand its range of products and may use internally generated cash and external funding in connection with such acquisitions.

As of July 31, 2017, the Company's consolidated funded backlog is approximately \$23 million compared to \$28 million at April 30, 2017, the end of fiscal year 2017. Approximately 80% of this backlog is expected to be realized in the next twelve months. Included in the backlog at July 31, 2017 is approximately \$9.4 million under cost-plus-fee contracts which the Company believes represent firm commitments from its customers for which the Company has not received full funding to-date. The Company excludes from backlog any contracts or awards for which it has not received authorization to proceed and on fixed price contracts excludes any unfunded portion. The Company expects these contracts to become fully funded over time and will add to its backlog at that time.

The Company believes that its liquidity is adequate to meet its operating and investment needs through at least September 14, 2018.

Based upon the Company's decision to sell its Gillam business and the associated presentation as Discontinued Operations, the Company believes that the effect on cash flow will be neutral, however it is expected to have a positive cash effect when the intended sale is concluded.

The Company's international business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates, primarily in the Euro to U.S. Dollar exchange rate and in the Chinese Renminbi to U.S. Dollar exchange rate.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements, other than operating leases, that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Company's management, with the participation of the Company's chief executive officer and chief financial officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based on their evaluation, the Company's chief executive officer and chief financial officer have concluded that, as of July 31, 2017, the Company's disclosure controls and procedures were effective to ensure that information relating to the Company, including its consolidated subsidiaries, required to be included in its reports that it filed or submitted under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Control Over Financial Reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended July 31, 2017 to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Signing on behalf of the registrant and as principal financial officer

**CERTIFICATION PURSUANT TO
SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002**

I, Martin Bloch, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Frequency Electronics, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002**

I, Steven L. Bernstein, certify that

1. I have reviewed this quarterly report on Form 10-Q of Frequency Electronics, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
