Report of Independent Registered Public Accounting Firm

To the Trustees of  
Frequency Electronics, Inc.  
401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of Frequency Electronics, Inc. 401(k) Savings Plan (the "Plan") as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FREQUENCY ELECTRONICS, INC.

401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2004

1. Plan Description

The following description of the Frequency Electronics, Inc. (the "Company" or the "Employer") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, adopted on January 1, 1985, is a defined contribution savings plan qualified under Section 401(k) of the Internal Revenue Code covering employees of the Company who have completed six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute up to 25 percent of pretax annual compensation, as defined by the Plan, subject to certain limitations imposed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit plans. The Company may make matching contributions, as defined by the Plan. Company contributions, if any, may consist of cash or qualifying employer securities. During the year ended December 31, 2004, Company contributions were made in the form of Company stock. The Company contributed 100 percent of the first 3 percent of base compensation that a participant contributed to the Plan, not to exceed a maximum of \$2,500. Additionally, the Company contributed \$500 on behalf of each eligible participant, regardless of the participant's contribution, if any. The maximum Company contribution is \$3,000 per participant.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations of Plan earnings are made to each participant's account based upon participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 20 percent after two years of service and 20 percent each year thereafter. A participant is 100 percent vested after six years of credited service.

Participant loans - Loans are permitted against a participant's contributory account balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's contributory account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4 percent to 11 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - A participant may elect to receive the value of the vested interest in his or her account upon termination of service due to death, disability or retirement. An employee who became a participant on or after January 1, 1998, will generally receive their benefit as a lump-sum distribution. An employee who became a participant prior to January 1, 1998, will generally receive their benefit, unless otherwise elected, as a Qualified Joint and Survivor Annuity, if the participant is married, or as a life annuity, if unmarried. Participants who elect not to receive the annuity form of payment, may elect to receive a lump-sum distribution or a distribution in substantially equal monthly, quarterly, semi-annual or annual installments (over a term that does not extend beyond the participant's or designated beneficiary's actuarial life expectancy).

Forfeited accounts - At December 31, 2004 and 2003, forfeited non-vested accounts, and earnings thereon, totaled approximately \$9,100 and \$29,800, respectively. These accounts may be used to pay administrative costs of the Plan. Any such accounts not used to pay administrative costs will be reallocated to participants in the same manner as employer contributions. During the year ended December 31, 2004, forfeitures of non-vested accounts totaled approximately \$20,400 and accounts totaling approximately \$41,600 were reallocated to participants.

Plan expenses - Expenses associated with administering the Plan are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of presentation - The accompanying financial statements have been

prepared on the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition - The Plan's investments are stated at fair value based upon quoted market prices, except for the Plan's benefit responsive investment contract with an insurance company, which is valued at contract value, which approximates fair value. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized in the period earned. Dividends are recorded on the ex-dividend date. Gains and losses on the sales of investments are recognized when realized, while unrealized gains and losses are recognized daily based on fluctuations in market value. Realized and unrealized gains and losses are netted in the financial statements.

Frequency Electronics, Inc. Common Stock Fund - The Frequency Electronics, Inc. Common Stock Fund is a nonparticipant directed fund. All employer matching contributions that were made prior to January 1, 1990 and subsequent to January 1, 2001 are in the form of Frequency Electronics, Inc. common stock. This stock is valued at the last sale price on the American Stock Exchange on the last business day of the year. Frequency Electronics, Inc. common stock approximated \$2,150,000 (19%) and \$1,780,000 (19%) of total assets at December 31, 2004 and 2003, respectively.

Information about the significant components of the change in net assets related to the nonparticipant-directed investment during the year ended December 31, 2004 is as follows:

Balance, January 1, 2004	\$ 1,779,971
Employer Contributions received during 2004	381,259
Net Appreciation in Fair Value of Investments	37,498
Investment Income	28,124
Distributions	(77,025)
	-----
Balance, December 31, 2004	\$ 2,149,827
	=====

Payment of benefits - Benefits are recorded when paid.

### 3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2004:

Met Life Stable Value Option - Premier Pooled Guaranteed Investment Contract (GIC) NAV Product; 263,081 shares	\$ 2,813,509
Federated Capital Appreciation Fund; 81,325 shares	2,061,594
Calvert Income Fund; 39,587 shares	672,981
American Funds - Growth Fund of America; 36,454 shares	998,100
Frequency Electronics, Inc. Common Stock; 144,769 shares	2,149,827

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2003:

Met Life Stable Value Option - Premier Pooled Guaranteed Investment Contract (GIC) NAV Product; 257,849 shares	\$ 2,670,754
Federated Capital Appreciation Fund; 81,704 shares	1,950,281
Calvert Income Fund; 33,365 shares	569,203
American Funds - Growth Fund of America; 35,248 shares	864,974
Frequency Electronics, Inc. Common Stock; 122,757 shares	1,779,971

### 4. Investment Contract with Insurance Company

The Plan has entered into a benefit-responsive investment contract with Metropolitan Life Insurance Company ("Met Life") referred to as the Met Life Stable Value Option. Met Life maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Met Life. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 3.25%. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. The interest rate is reviewed on a quarterly basis for resetting. The crediting interest rate at December 31, 2004 was 3.25%.

### 5. Tax Status

The Internal Revenue Service has determined and informed the Company by a

letter dated January 29, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

#### 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

#### 7. Parties in Interest/Related Party Transactions

The Plan's investments include shares of common stock issued by the Plan Sponsor, Frequency Electronics, Inc. This stock is valued at the last sale price on the American Stock Exchange on the last business day of the year. Investment in Frequency Electronics, Inc. common stock is permitted under the provisions of the Plan.

The Plan has entered into a benefit-responsive investment contract with Metropolitan Life Insurance Company ("Met Life"). Met Life is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan.

During the year ended December 31, 2004, the three trustees were also members of the Plan.

#### 8. Cash Dividend

During calendar year 2004, the Board of Directors of Frequency Electronics, Inc. declared a cash dividend of \$.10 (ten cents) per share payable June 1 and December 1. This dividend aggregated approximately \$28,100 in 2004.

#### 9. Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, bonds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
